LEXMARK X658DTE

Introducing the intelligent alternative to copiers! The fully equipped Lexmark X658dte multifunctional laser brings you the benefits of a departmental copier, yet in a compact, affordable A4 device. Get everything you need to power through your busy workday, including rapid output speeds, smart workflow capabilities, cutting-edge security and flexible paper handling.

Amazing document power!

Whether you need to make a large number of copies, scan and send a big presentation, or zip through a high-volume print run, you're equipped with the robust features and functionality you need to get the job done.

Exceptional speeds; delivers up to 53 prints, copies or scans per minute

Advanced paper handling

Optimised workflow capabilities with flexible scan destinations and formats

Powerful fax with time-saving functions, such as fax forwarding

Large-capacity 80GB hard disk for expanded functionality

Flexibility from start to finish

When it comes to office performance, there's very little these MFPs can't do. You'll benefit from a wide range of versatile features to maximise your office productivity.

Intuitive, customisable touch screen for effortless operation

Lexmark's Embedded Solutions Framework enables your MFP to be tailored for workflow efficiency

MyMFP lets users personalise the touch screen with the functions and shortcuts they use most

Optional integrated card reader for easy authentication

Cutting-edge security

The Lexmark X658dte is equipped with state-of-the-art security to protect your valuable corporate data. It also features customisable user-access controls, allowing you to enable or disable functions with ease.

IPSec, SNMPv3 and 802.1x network security

Secure data encryption and disk wiping

Industry-leading access restrictions, including LDAP

Proactively tracks and identifies security risks

Prints black, thinks green

With the efficient Lexmark X658dte, it's easy to save paper, lower the energy your MFP consumes, and use fewer cartridges overall. In addition, you'll free up valuable office space for other uses and actually print less by reducing the amount of information you print, copy and distribute in hardcopy format.

Eco-Mode reduces power consumption

Built-in duplex printing saves paper

Lexmark Extra High Yield Print Cartridges (36,000 pages) reduce waste and lower your cost per page

Lexmark Cartridge Collection Programme offers fast, free and easy recycling

Less is definitely more!

Everything you'd expect from a great copier is here, from the robust design to the rapid output speeds. But Lexmark X658de MFPs take over where copiers leave off.

By choosing an efficient A4 MFP over a large A3 device, you'll be able to save valuable office space, lower your total printing costs, boost productivity and deploy time-saving

the icons and shortcuts you need most. You can even change the background image to whatever suits you best, like your logo.

Efficient traffic shaping

When you email a large file from your Lexmark X658dte, it won't cause a traffic jam on your network. That's because traffic-shaping technology can partition your network traffic and designate lower bandwidth for outbound flows. This is especially useful for busy networks and externally hosted Web servers.

On-screen scan previews

Before you scan and email an important image file, see how it looks and fits on the page. Should it be in colour or black and white? Is the page orientation correct? Are you sure you scanned the correct side of the page? You may also want to check the file size of the scanned document before you save or forward it on. The Lexmark X658dte lets you preview your scan and note the file size, saving you time and eliminating errors.

Personalised user settings

A real efficiency booster, Lexmark's new MyMFP feature lets multiple users save and re-access their personal settings on a simple flash drive, including their local address book, personal fax numbers, individual copy settings, and even their own touch-screen configuration. They simply walk up to the MFP, slide in their flash drive and the MFP literally transforms into their own personal device. A warm welcome each time they use it!

Hassle-free installation and management

Every Lexmark X658dte model arrives pre-assembled and ready to go – you can have it up and running in just a few minutes. If you're installing multiple Lexmark devices, the Lexmark Universal Driver offers easy deployment. Once you're up and running, Lexmark's free remote management software, Lexmark MarkVision™ Professional, keeps the workday flowing.

Lexmark's Embedded Solutions Framework

Experience more productivity than you could ever imagine! Lexmark's new MFPs come solutions-ready. That means they can be customised easily to meet your unique printing needs. Contact your Lexmark dealer to find out how simple it is to tailor your MFP with one or more of Lexmark's leading industry solutions. With the touch of an icon you can transform your hardcopy documents into digital workflow, helping you print less, save time, lower costs, and reduce the environmental impact of printing.

Cost saving and environmental features

Energy Star compliant

Duplex printing, Print and Hold, multi-up and support of recycled paper help reduce paper consumption

Eco-Mode reduces power consumption and Quiet Mode reduces noise emission

Extra High Yield Print Cartridges and Lexmark Cartridge Collection Program help reduce landfill

Lexmark's guarantee to you

Lexmark's 1-Year Onsite guarantee provides added peace of mind. Enhanced service offerings may be available by contacting your Lexmark representative or visiting www.lexmark.com. Optimize your printer's performance and investment value by using genuine Lexmark supplies, service and parts.
